DISCLAIMER

The information provided on this page does not represent any profit guarantee trading or any other income guarantee. You should evaluate the written information in this way. Before making any investment decision, do your own financial assessment and consult your financial advisor.

Although it will not bear any responsibility for incomplete or incorrect information Also, you should know that the project and team information is correct and that we will stick to the project. Our website provides token and team information in a realistic way.

User information on the site evaluated at its own risk. Cryptocurrency market involves high risks. Many blockchain applications are experimental. Working in a decentralized way It is a technology that is maintained and developed by volunteer developers. Although some applications have reached high market values, there is no guarantee of continuity.

This for reason; We want you to know that you accept all responsibilities if you make an investment and that the ARABIAN APE GROW Token \$AAG team will not be responsible for any material and moral damage that may occur.

INTRODUCTION

ARABIAN APE GROW Token is a decentralized BEP20 community-driven token, to bring the unique thrust system code deploying on binance smart chain for the first time to bring passive feature income hardcoded into our contract to top until it reaches a threshold.

This factor implies that users or the project's team built on the Binance Smart Chain network will be extremely safe and rewarding on the spot for long-term holders.

ARABIAN APE GROW Token will powering AAG super app consisting of other big application such as AAG Verse, AAG NFTs Marketplace, AAG Swap, AAG Chain and AAG Pad.

ARABIAN APE GROW will be the biggest project of BSC Token project. Target to compete with global token and get listed on Big Exchanges.

By keeping our word, we hope to fulfill our promise to make your investment-worthy.

MISSION

Our goals of expanding and establishing a client base are greatly supported by combining Metaverse and AAG NFT to provide our users something to play and earn. We want to realize our goal of a healthy climate for our clients by maintaining the pricing of our token and the incentives for our symbolic holders.

Our short-term objectives include getting the coin listed on CoinMarketCap and CoinGecko, as well as marketing the coin and posting the White Paper on our website. Our long-term objectives is to finish and launch all big application under AAG super app.

VISION

The biggest noticeable impact, we feel, is when individuals enter the market and decide to stay. It can be overwhelming for newbies to the Decentralized Exchange (DEX) ecosystem.

ARABIAN APE GROW plans to develop a platform (AAG CHAIN) that will support a coin user's journey through its experience in our platform so that no users would be left out or feel unattended and a decentralized local area that encourages newcomers to stay, whether as dealers or stage clients.

We accept that by developing this environment, we will be able to improve the current vertical pattern's manageability. At the end, ARABIAN APE GROW will come up with AAG VERSE that will compete with other big project of METAVERSE.

BINANCE SMART CHAIN

Binance is one of the most well-known cryptocurrency blockchain in the industry right now. Binance has created Binance Chain, a blockchain network with a variety of features. Binance Chain was designed specifically for use with the Binance DEX. Its goal was to speed up transactions to binance. Smart Chain (BSC) is a blockchain network that allows smart contract-based applications to be executed. The following are some advantages of the Binance Smart Chain:

- Low transaction fees of as little as one cent
- Cross-chain Defi techniques that improve Defi interoperability
- High performance with a network capable of producing a block every 3 seconds
- Cross-chain Defi mechanisms that increase Defi interoperability
- A supportive Binance ecosystem that funds and bootstraps many Defi projects
